

**ABOUT OUR DIRECTOR
Johanna M. Abahoonie**

"My goal is to provide an individualized program for each child that supports his/her efforts in the classroom"

Mrs. Abahoonie is a certified public school educator with over 30 years experience in the classroom, administration, and mentor-teacher programs.

She was recognized as Teacher of the Year 2002-03, in her Florida school district and by the Rotary Club of Boca Raton. She has extensive experience in developing and implementing reading and math curricula, with proven success in teaching the writing process.

On The Learning Curve to Success

**THE LEARNING CURVE WILL
MAXIMIZE YOUR CHILD'S TRUE
LEARNING POTENTIAL.**

Supplemental Educational Services (SES) refers to extra academic instruction or tutoring, provided to students in Reading/Language Arts and Mathematics. This extra help must be provided beyond the regular school day.

**SUPPLEMENTAL
EDUCATIONAL SERVICES
SES FREE TUTORING
PROGRAM**

For Eligible Students

**SES Approved State Provider
New Jersey ~ Florida**

"Every child in America deserves a high-quality education. No Child Left Behind, the historic education law, provides for the extra help students need to do well in school."

WHO IS ELIGIBLE?

Your child may be eligible to receive our **FREE TUTORING/SES** if he or she:

- ✓ Attends a Title I elementary or middle school that your state has designated as, "in need of improvement" because it has not made Adequate Yearly Progress (AYP) for 2(NJ) / 3(FL) or more consecutive years.
- ✓ Receives free or reduced-price lunch.

Parents of eligible students will receive SES information from their child's school or district.

WHAT ARE SES SERVICES?

The Learning Curve Education Center provides educational services that support your child's efforts to succeed in school. Each student works at an individual computer work station while a tutor provides support and instruction. The learning experience is interactive and engaging - it holds a child's attention! Each student is an active participant in his/her learning voyage 100% of the time. Learning Curve students get all the attention they need by the same tutor every session. Tutoring is provided after dismissal at your child's school 2 to 3 times a week for 1 hour to 1½ hour sessions. **Services are also provided at our education center located in Toms River, New Jersey for our South Jersey residents.**

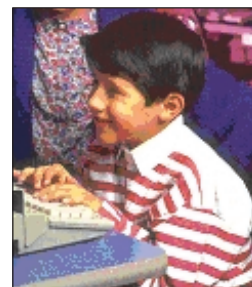

WHAT IS THE LEARNING CURVE PROGRAM?

- ★ A pre- and post- assessment in Math and Reading/Language Arts to pinpoint your child's strengths and identify areas that need development and reinforcement.
- ★ A report for parents and teachers explaining the results of the assessments.
- ★ Easy to read computer generated progress reports.
- ★ A personalized online learning path in both Math and Reading/Language Arts custom built specifically to your child's needs.
- ★ Complete academic lessons which provide reinforcement and ample opportunity for practice.
- ★ A Math and Reading/Language Arts curriculum aligned to State Standards.
- ★ Quizzes and Chapter Tests to measure achievement.
- ★ Offline worksheets to support the online learning path lessons.
- ★ Individual tutoring instruction and support.
- ★ An Attendance Rewards Program to acknowledge consistent participation.

The lessons and activities in our program develop higher order thinking and problem solving skills. Immediate feedback of a student's achievement is provided and included in the progress reports. The lessons allow students the opportunity to:

- listen and learn
- repeat instruction, as needed
- practice learned material
- view the results of their efforts

Academic success is the foundation upon which better grades, confidence, and self-esteem flourish.

WHY CHOOSE THE LEARNING CURVE EDUCATION CENTER?

The Learning Curve Education Center is a professional tutoring service owned and operated by a master public school teacher. We are not a franchise. We combine the best individualized tutoring with personalized computer delivered lessons to obtain an effective learning experience for each student. A tutor works with each child as he/she progresses through the online lessons and worksheets. Our program is designed to stimulate and motivate students. Many children who struggle in school lose the confidence and desire to succeed. Peer pressure is removed when a child embarks on his/her own learning voyage. The Learning Curve approach provides the individualized attention each child deserves and needs to be successful.

WHO IS THE SES TEAM?

Parents: We welcome and encourage you to contact us regarding your child's learning experience.

Teachers: We communicate with classroom teachers to provide meaningful instruction that students can transfer to their classroom.

Tutors: We hire highly qualified tutors who provide focused support and instruction to each student.

NON-SES SERVICES:

The Learning Curve also provides the same tutoring services to students who are not eligible to participate in the SES Program. Please call our office or visit our website for details and fees.
